Course Information

General English

Students of all ability levels and aged 18 years or over may enrol. After a placement test, students will be put into a class at the appropriate level, with one teacher for the morning and another for the afternoon. The syllabus systematically guides students in developing their use of English for effective communication. Progress is carefully monitored in speaking, listening, reading and writing. Morning classes aim to introduce and consolidate new language items, with particular attention to vocabulary and grammar. Afternoon work boosts fluency, building confidence in a wide range of speaking, writing, reading and listening activities.

Cambridge Examination Preparation Courses

Students are expected to have a reasonable chance of success in the examination they are preparing for. The academic director may request a special entry test for FCE and CAE classes. If proficiency requirements are not met, students may continue to study in the General English programme at the appropriate level.

IELTS Preparation

A full-time IELTS class is available for candidates registered to take the IELTS test, or students interested in attending a class with an exam focus. Expert guidance is provided for both General Module and Academic Module candidates..
